

# **Bitcoin Fashion (BTCF)**

Whitepaper Version 1.0

## About Bitcoin Fashion

Is the #1 favorable marketplace in the crypto leeway that enable crypto traders to do shopping online with their cryptocurrencies on our shopping platform and make payment easily using our flexible contract, on the blockchain technology.

Our mutinous blockchain service is built for all crypto traders to handily do shopping online with cryptocurrencies that will be revamped to BTCF token or coin at the lethal order of goods and services on our platform and own blockchain ecosystem.

Bitcoin Fashion delivers you the easiest and smarter shopping way to purchase your choice of wears for your loved ones such as kids, men, and women and including speedy shipping to your home of country.

We developed BTCF to enhance day to day commerce on the blockchain technology and for better shopping transparency and goods tracking on the delivery. Our platform capitalizes a very good relief to make payment in a native currency like USD, EUR, & GBP which is automatically converted to BTCF coin/token on our platform.

## The Problem

- i). Cryptocurrencies have increased tremendous transactions in the world but finding it complicated to capitalize a legal transaction for shopping from the global marketplaces and this is curtailing the interest of the community to buy and sell more cryptocurrencies to purchase their choice of goods from offline and online marketplaces.
- ii). Cryptocurrencies are better than scarcely an exchange of transactions on leading exchanges and the commodity market.
- ii). Deprivation of recognizing physical goods that crypto community or traders use cryptocurrencies to purchase.
- iii). Fiat peaceful have better huge transactions to purchase goods in the world, then why the importance of making cryptocurrency?

## Reason You Should Choose Bitcoin Fashion?

We recognized in a modern world of blockchain, which helps us to launch the best-awaited marketplace for crypto lovers and traders. We developed it very carefully to make it better attractive, useful, responsive to any kind of device, and user friendly.

### i). Secured User Data

We secure our user data and honor their privacy.

### ii). Low fee & Variety of Payment Options

With BTCF token, you will be eligible to shop on our platform without increased fees/charges and track your transaction with the support of our flexible contract. You can adequately choose any currency you want among fiat and crypto alternatives on the payment method which automatically revamped to BTCF token.

### iii). Do shopping safely

Our BTCF flexible contract guarantees that your fund goes to the companies' account only after the item was moved to a goods tracking system and we guarantee our customers have the privilege to reimburse goods purchased once the condition is within our return policy.

## Bitcoin Fashion Features.

i). Establish a protected decentralize marketplace

We esteemed security of our shoppers and encrypt our payment technique both on the blockchain and fiat.

ii). Deciphering cryptocurrencies problem

We put together crypto enthusiast & traders to spend their wallet on our protocol without compulsory to exchange it to fiat first.

iii). Consumer Shopping Account

We respected the secrecy of our customers and KYC is required for each user in order to fulfill the regulation standards.

## Usefulness of Bitcoin Fashion

Bitcoin Fashion (BTCF) was developed as an accepted global shopping mart for all traders and crypto enthusiasts which gave additional valuable of cryptocurrencies in the crypto space. Consumers are enabled to do shopping online without revamping their crypto currencies into fiat.

i). Global Marketplace:

Our protocol enabled all crypto enthusiasts and traders to do shopping online and offline.

ii). Consumers Safety:

We guarantee our payment processor is encrypted with the benefit of smart contract on the blockchain technology.

iii). Decentralize Payment Systems

Any received payments in fiat and any other additional cryptocurrencies are revamped instantly to BTCF token before sealing customer order which solidifies the evolution of our token.

iv). Protocol User Interface

Our protocol user interface is well designed and friendly with any kind of device.
